1. Executive Summary

Service Name: Special Need Vehicle Rental **Parent Organisation:** [Elderly Care Facility Name], New South Wales, Australia **Proposed Launch:** [Target Month] 2026

Special Need Vehicle Rental is a web-based vehicle hire service operated as an ancillary revenue stream by an established elderly care facility in New South Wales. The service makes up to **100 facility-owned vehicles available for public hire** during periods when those vehicles are not required for facility operations.

The service is designed for the local community — particularly families of residents, carers, allied health professionals, and community organisations — who require accessible, reliable transport for medical appointments, therapy sessions, community activities, and daily mobility. The application is embedded as a single link within the facility's existing production website, ensuring a seamless, low-friction customer experience.

Key Highlights:

Metric	Projection
Fleet size	Up to 100 vehicles — already owned by the facility

Metric	Projection
Vehicle acquisition cost	\$0 — no new fleet purchase required
Target market	Greater Sydney region (NSW)
Estimated gross revenue (Year 1, conservative)	AUD \$47,520 – \$89,100 p.a.
Monthly infrastructure cost	< AUD \$20 / month
Break-even point	Approximately 29 bookings/month (< 1 per day)
Payment gateway	Form-only (Phase 1); Stripe/eWAY (Phase 2)
Primary differentiator	Accessibility-first, community-focused, care-sector trusted; zero fleet acquisition cost

This business plan outlines the operational, financial, legal, and strategic framework required to launch and sustain the service in compliance with applicable NSW and Commonwealth legislation.

2. Business Overview

2.1 Background

The facility already owns and operates a fleet of up to 100 vehicles used to transport residents to medical appointments, recreational activities, and other engagements. These vehicles experience significant idle time — typically outside business hours, on weekends, and during staff leave periods. Because the fleet is already purchased and maintained as part of facility operations, **no new vehicle acquisition is required** to launch this service. This idle capacity represents a high-margin commercial opportunity: the vehicles are a sunk cost, and every rental booking is incremental revenue with minimal additional overhead.

Key Value Proposition — Why This Works:

Advantage	Detail
Zero fleet acquisition cost	Vehicles are already owned and paid for by the facility
Low marginal cost per rental	Main added costs are staff time, cleaning supplies, and an insurance endorsement — no vehicle loan or depreciation expense
Existing maintenance infrastructure	Vehicles are already serviced, registered, and roadworthy
Trusted brand	The facility's community reputation transfers directly to the rental service
High-margin incremental revenue	Every booking is near-pure profit above the small variable costs

2.2 Mission Statement

To provide safe, accessible, and affordable vehicle hire to individuals and organisations in our community, while generating a sustainable supplementary income stream for the facility.

2.3 Vision

To become the most trusted accessible vehicle hire service in our region, recognised for exceptional care, reliability, and commitment to the independence and mobility of elderly and disabled community members.

2.4 Business Structure

The service operates as an extension of the existing facility's legal entity (no separate incorporation required for MVP). Revenue is received into the facility's existing ABN. A dedicated cost centre or profit centre may be established for accounting purposes. Legal and insurance matters are managed in conjunction with the facility's existing insurer, solicitor, and accountant.

3. Market Analysis

3.1 Market Context — Greater Sydney Region

New South Wales has approximately **1.2 million people aged 65 or over** (ABS, 2021 Census), representing 14.3% of the state population. The Greater Sydney region contains the highest concentration of elderly residents in NSW. According to Transport for NSW data, a significant proportion of elderly and mobility-impaired individuals report difficulty accessing appropriate transport for medical appointments and daily activities.

Key market drivers:

- **Ageing population:** NSW's population aged 65+ is projected to grow 50% by 2041 (NSW Department of Planning)
- **NDIS growth:** National Disability Insurance Scheme participant numbers continue to grow; many participants require accessible transport
- **Gaps in accessible transport:** Standard rideshare and taxi services often lack wheelchair-accessible vehicles; wait times can be excessive
- **Family carer demand:** Adult children and carers of elderly residents require reliable, familiar, affordable transport options

3.2 Target Customer Segments

Segment	Description	Priority
Families of facility residents	Need transport for residents to attend appointments, family gatherings, social outings	Primary
Community carers	Professional and informal carers needing accessible transport for clients	Primary
Allied health providers	Physiotherapists, occupational therapists, medical practices arranging transport	Secondary
Community organisations	Disability services, senior citizens groups, community centres	Secondary

Segment	Description	Priority
Individual renters	Community members needing accessible or larger-capacity vehicles	Tertiary

3.3 Competitive Landscape

Competitor	Type	Limitation vs. This Service
Enterprise / Hertz	National car rental	Rarely accessible vehicles; no community focus; higher pricing
Rideshare (Uber, DiDi)	On-demand transport	No wheelchair-accessible options; not available for multi-hour/day hire
Maxi Taxi / Wheelchair Taxis	Regulated hire car	Per-trip only; expensive for long durations; booking friction
NDIS transport providers	Registered providers	Limited to NDIS participants; fixed routes
Council transport services	Community buses	Limited hours; requires advance registration

Competitive Advantage: This service uniquely combines trusted care-sector credentials, a fleet optimised for accessibility, competitive daily rates, and a community-first ethos. The facility's existing reputation provides an immediate trust advantage over commercial competitors.

4. Service Description

4.1 Service Offering

Offering	Detail
Vehicle types	Sedans, station wagons, people movers, wheelchair-accessible vans
Booking method	Online via facility website link; phone backup for accessibility
Booking window	Minimum 1 hour; maximum 7 days (configurable)
Collection method	Vehicle pickup at facility; key handover by staff
Operating hours	Subject to staff availability; initially 8:00 AM – 6:00 PM AEST Mon–Sat
Payment	Phase 1: form capture, confirmed by staff; Phase 2: online payment gateway

4.2 Pricing Structure (Proposed)

All prices inclusive of GST (10%) as required under the *A New Tax System (Goods and Services Tax) Act 1999 (Cth)*.

Rate Type	Price (AUD, incl. GST)	Notes
Hourly	\$22.00/hr	Short-duration trips, minimum 1 hour
Half-day (up to 5 hrs)	\$88.00	Popular for medical appointments
Full day	\$132.00	Up to 24 hours from pickup
Wheelchair-accessible premium	+\$11.00/day	Covers additional cleaning and equipment check
Security deposit	\$200.00 (refundable)	Held pending return inspection; Phase 2

Note: Prices are subject to review by management and should be validated against local market rates prior to launch.

4.3 Add-On Services

Add-On	Price (AUD, incl. GST)	Notes
Child booster seat	\$5.50/day	Subject to availability
GPS navigation unit	\$5.50/day	For vehicles without built-in nav
Extended hours pickup	\$11.00/booking	Outside standard operating hours

5. Legal & Regulatory Compliance (NSW)

Compliance with the following legislation and regulations is **mandatory** prior to public launch.

5.1 Vehicle Hire Licensing (NSW)

Under the **Motor Dealers and Repairers Act 2013 (NSW)**, hiring out vehicles to the public may require a **Motor Dealer's Licence** or a specific vehicle hire authorisation depending on the nature of operations. The facility must:

- Consult **NSW Fair Trading** to confirm whether a licence is required for the planned hire model
- If required, apply for the appropriate licence category before accepting bookings
- Display licence details on the website as required by law

Action required: Engage NSW Fair Trading or a legal adviser to confirm licensing requirements before launch.

5.2 Insurance

Insurance Type	Requirement	Action
Compulsory Third Party (CTP)	Required for all registered vehicles under Motor Accidents Injuries Act 2017 (NSW)	Confirm existing CTP covers hire use; some CTP policies restrict commercial hire

Insurance Type	Requirement	Action
Comprehensive vehicle insurance	Recommended; must include third-party hire cover	Obtain endorsement for hire/rental use from insurer
Public liability	Strongly recommended; minimum \$10 million	Confirm existing policy extends to hire customers
Renter damage liability	Optional damage excess waiver product	Consider as add-on revenue stream in Phase 2

Action required: Engage the facility's existing insurer or an insurance broker to obtain appropriate endorsements. Some policies exclude vehicles hired to third parties — this must be resolved before launch.

5.3 Driver & Renter Eligibility

- Renter must hold a current, valid **Australian driver's licence** (or international equivalent as permitted under NSW road rules)
- Minimum age: **25 years** (recommended for insurance and risk management; confirm with insurer)
- Renter must sign a **Hire Agreement and Liability Waiver** prior to vehicle handover
- For accessible vehicles with special controls, confirm renter holds appropriate licence endorsements

5.4 Vehicle Registration & Roadworthiness

Under the **Road Transport Act 2013 (NSW)** and associated regulations:

- All vehicles must hold current NSW registration
- Vehicles offered for hire must meet roadworthiness standards
- A **maintenance log** must be kept per vehicle
- Vehicles must be inspected at regular intervals (minimum annually or per manufacturer schedule)
- Buffer time between bookings allows staff to conduct a pre-hire safety inspection

5.5 Privacy — Australian Privacy Principles (APPs)

Under the **Privacy Act 1988 (Cth)**, the facility is required to:

- Publish a **Privacy Policy** accessible on the booking website
- Collect only the personal information reasonably necessary for the booking service
- Protect personal information from misuse, loss, or unauthorised access
- Allow individuals to access and correct their personal information
- Not disclose personal information to overseas entities without appropriate safeguards
- Notify affected individuals in the event of a serious data breach (Notifiable Data Breaches scheme)

5.6 Australian Consumer Law (ACL)

Under the **Competition and Consumer Act 2010 (Cth), Schedule 2**:

- Terms and conditions must be clear, fair, and not contain unfair contract terms
- Refund and cancellation policies must be disclosed before booking is confirmed
- Services must be provided with due care and skill, and fit for purpose

- Misleading or deceptive conduct in advertising is prohibited

5.7 Anti-Discrimination

Under the **Disability Discrimination Act 1992 (Cth)** and the **Anti-Discrimination Act 1977 (NSW)**:

- The booking website must be accessible (WCAG 2.1 AA compliance)
- Services must not unlawfully discriminate on the basis of disability, age, or other protected attributes
- Reasonable adjustments must be made for customers with accessibility needs (e.g., phone booking as alternative)

5.8 Disability Inclusion Act 2014 (NSW)

While primarily applicable to government agencies, the **Disability Inclusion Act 2014 (NSW)** reflects the NSW Government's commitment to disability inclusion. As an aged care and community-facing operator, the facility should voluntarily align with its principles, including accessible service design and inclusive communication.

5.9 Workplace Health & Safety

Under the **Work Health and Safety Act 2011 (NSW)**, staff involved in vehicle handover, cleaning, and inspection must be trained in safe manual handling, vehicle inspection procedures, and emergency protocols. Risk assessments for vehicle hire operations should be documented.

5.10 GST & Tax

Under the **A New Tax System (Goods and Services Tax) Act 1999 (Cth)**:

- If the facility's annual turnover exceeds AUD \$75,000 (or it is already registered), **GST registration is required**
- Vehicle hire is a taxable supply subject to 10% GST
- All invoices and receipts must display the total GST component and the facility's **ABN**
- BAS (Business Activity Statement) lodgement must reflect hire income

Action required: Confirm with accountant that GST registration is current and that hire income is reported correctly on BAS.

5.11 Electronic Transactions

Under the **Electronic Transactions Act 2000 (NSW)**, electronic contracts (booking agreements, terms acceptance via website checkbox) are legally binding provided the customer has the ability to print or save the agreement. Ensure the booking confirmation page includes a downloadable PDF or email copy of the terms agreed.

6. Operations Plan

6.1 Booking & Handover Workflow

6.2 Key Management & Security

- Vehicle keys stored in a **locked key cabinet** inside the facility
- Each key set tagged with vehicle ID and a numbered fob
- Key handover recorded in booking system (mark as "picked up")
- After-hours key return via secure drop-box (Phase 2 optional)

6.3 Vehicle Turnaround Standards

Step	Time Allocation
Pre-hire safety inspection	15 minutes
Cleaning and sanitising (standard)	30 minutes
Cleaning (accessible van)	45 minutes
Fuelling (if required)	20 minutes

Step	Time Allocation
Buffer between bookings (system-enforced)	60 minutes minimum

6.4 Fleet Maintenance Schedule

Interval	Action
Before each hire	Visual inspection: tyres, lights, fluids, cleanliness
Weekly	Full walk-around inspection; tyre pressure
Monthly	Fluid top-ups, interior deep clean
Per manufacturer schedule	Scheduled servicing (logbook)
Annually (or per insurer requirement)	Roadworthiness inspection

Vehicles must be removed from the booking system (status set to **maintenance**) whenever they are scheduled for service.

6.5 Customer Support

Channel	Detail
Phone	Facility main number during business hours
Email	Dedicated inbox (e.g., rentals@facility.com.au); 4-hour response SLA
Website	FAQ page covering bookings, payments, cancellations, accessibility
Complaints	NSW Fair Trading complaint process linked in footer

6.6 Accessibility Standards for Service Delivery

In alignment with the Disability Inclusion Act 2014 (NSW) and Disability Discrimination Act 1992 (Cth):

- Phone booking available for customers who cannot use the online system
- Staff trained in disability awareness and appropriate communication
- Pickup area accessible for wheelchair users (kerb cuts, ramp access)
- Vehicle handover area compliant with accessible parking standards
- All accessible vehicle features (ramps, anchor points, hand controls) inspected before each hire

7. Technology Overview

7.1 System Summary

The booking platform is a purpose-built web application with:

- A **public booking portal** accessible via a link on the facility's existing website
- An **admin dashboard** for staff to manage vehicles, reservations, and operations
- A **small database** (SQLite) stored on the cloud server — no ongoing database licensing costs

- **In-memory caching** for fast availability queries

7.2 Infrastructure Summary

Component	Details
Hosting	Cloud VPS — Sydney region (DigitalOcean / AWS Lightsail)
Estimated monthly cost	AUD \$14–20
Database	SQLite (file-based; suitable for 100 vehicles, low traffic)
TLS / Security	HTTPS enforced; Let's Encrypt certificate (free, auto-renewing)
Backups	Automated daily database backup; 14-day retention
Uptime target	99.5% (monitored by free uptime service)

7.3 Payment Processing Phases

Phase	Mechanism	Timeline
Phase 1 (Launch)	Payment form captures billing details; staff confirms payment manually by phone/bank transfer	Month 0–3
Phase 2	Integrated payment gateway (Stripe, eWAY, or Tyro — Australian-compliant)	Month 3–6
Phase 3 (Optional)	Security deposit hold, automated receipts, NDIS invoicing integration	Month 6–12

8. Financial Plan

8.1 Revenue Projections

Scenario Assumptions

Scenario	Bookings/Day (fleet avg.)	Avg. Revenue/Booking	Monthly Revenue	Annual Revenue
Conservative	1.5	\$88	\$3,960	\$47,520
Moderate	2.5	\$99	\$7,425	\$89,100
Optimistic	4.0	\$110	\$13,200	\$158,400

GST-inclusive figures above. GST (10%) is remitted to the ATO — net revenue is approximately 9.09% lower.

8.2 Cost Structure

Fixed Monthly Costs

Item	Monthly Cost (AUD est.)
Cloud hosting (VPS + backups + domain)	\$15–20
Email service (SMTP provider e.g. Mailgun free tier or similar)	\$0–5
Uptime monitoring (UptimeRobot free)	\$0
Payment gateway fees (Phase 2, variable)	~2.9% + \$0.30 per transaction
Total Fixed Tech	~\$15–25 / month

Variable Operating Costs (Rental-Specific Only)

Important: Vehicle purchase, registration, and routine mechanical servicing are **existing facility costs** and are not included below. The rental service adds only the marginal costs shown.

Item	Monthly Estimate (AUD)	Notes
Staff time: vehicle preparation, admin, handover (est. 12 hrs/wk @ \$32/hr award)	\$1,664	Attributable to rental operations
Additional vehicle maintenance / wear reserve	\$300–600	Incremental wear from public hire, above baseline facility use
Cleaning supplies (rental-related)	\$100–200	Above normal facility cleaning
Insurance premium increase (hire endorsement)	\$200–500	Endorsement to existing policy to cover third-party hire; confirm with insurer
Marketing (ongoing)	\$100–300	
Total Variable (rental-attributable)	~\$2,364–3,264 / month	

Vehicle purchase, standard servicing, registration, and CTP are existing facility costs. They are not charged to the rental service.

8.3 Break-Even Analysis

Based on conservative revenue of \$88 per booking:

Cost Element	Monthly (AUD)
Fixed tech	\$20
Insurance allocation	\$300
Staff (minimum viable)	\$1,664
Maintenance reserve	\$500
Total Operating	\$2,484

Bookings to break even: $\$2,484 \div \$88 \approx 29$ **bookings/month** (< 1 booking per day)

This is a highly achievable threshold given the target market size and the facility's existing community relationships.

8.4 Capital Requirements

Because the facility already owns the fleet, **vehicle acquisition is not a startup cost**. The capital required to launch is limited to technology, legal preparation, and marketing.

Item	One-Off Cost (AUD)	Notes
Vehicle fleet purchase	=	Not required — already owned
Application development	\$5,000–\$15,000	If outsourced to a developer; \$0 if built in-house
Legal review (T&Cs, hire agreement, privacy policy)	\$1,500–\$3,000	Solicitor review; strongly recommended
Insurance endorsement / broker fees	\$500–\$1,500	One-off to add hire endorsement to existing policy
Staff training	\$500–\$1,000	System training, handover procedures
Initial marketing (launch campaign, signage, flyers)	\$500–\$1,500	
Total Estimated Capital	\$8,000–\$22,000	Extremely low compared to starting a new rental business from scratch

This is a fraction of what it would cost to launch a vehicle hire service with a new fleet. A comparable commercial rental startup acquiring 100 vehicles would face AUD \$3–8 million in fleet capital alone.

8.5 Payback Period

At moderate scenario revenue (\$7,425/month gross) minus rental-attributable operating costs (~\$2,484/month):

Monthly net contribution: ~\$4,941 **Payback on \$15,000 capital investment:** approximately **3 months**
Payback on \$8,000 capital investment (low end): approximately **2 months**

Because there is no vehicle loan, lease, or depreciation expense attributable to the rental service, the effective margin per booking is high. Even a single busy weekend can cover a full month of operating costs.

9. Marketing & Customer Acquisition

9.1 Launch Strategy

Phase 1 — Internal Capture (Month 1–3):

- Email newsletter to families of all current residents announcing the new service

- Printed flyers in facility common areas, visitor reception, and car park
- Staff word-of-mouth (staff as brand ambassadors)
- Link prominently placed on facility website homepage

Phase 2 — Community Reach (Month 3–6):

- Partner with local GP clinics, specialist medical practices, and allied health centres
- Approach local NDIS service coordinators and support coordinators
- List on local community Facebook groups and Nextdoor
- Contact Local Area Coordinator (LAC) networks in the region

Phase 3 — Digital Growth (Month 6–12):

- Google My Business listing (free)
- Paid local Google Ads targeting "wheelchair hire Sydney", "accessible car hire NSW"
- Seasonal promotions (Christmas, school holidays)
- Referral discount program

9.2 Key Messages

- "Trusted transport from a care organisation you already know"
- "Accessible vehicles, accessible booking — online in minutes"
- "Community rates — supporting the people who support your family"

9.3 Promotional Offers

Offer	Detail
Launch promotion	10% off first booking for facility families (first 90 days)
Community partner discount	15% off for registered NDIS providers (code-based)
Referral credit	\$10 off next booking for each referral
Loyalty rate	After 5 bookings, qualify for monthly subscriber rate

10. Risk Management

10.1 Risk Register

Risk	Likelihood	Impact	Mitigation
Uninsured damage to vehicle by renter	Medium	High	Signed waiver; security deposit (Phase 2); comprehensive insurance with hire endorsement
Insurance gap — insurer excludes hire use	High	Critical	Resolve before launch. Engage broker; obtain written confirmation of hire cover
Licensing non-compliance (Motor Dealers Act)	Medium	High	Obtain legal advice pre-launch; apply for relevant licence if required

Risk	Likelihood	Impact	Mitigation
Low booking adoption	Medium	Medium	Target facility families first; introductory promotions; community partnerships
Vehicle double-booking	Low	Medium	Atomic reservation transactions in software; in-memory cache with short TTL
Data breach (customer PII)	Low	High	HTTPS, access controls, limited data collection; Notifiable Data Breach procedure in place
Staff capacity overrun during peak periods	Medium	Medium	Stagger booking windows; limit daily booking slots; recruit casual staff
Vehicle unavailability (maintenance)	Medium	Low	Fleet buffer; maintenance status in system blocks bookings proactively
Payment fraud (Phase 1)	Low	Medium	Manual confirmation by phone; verify ID at pickup; Phase 2 gateway handles fraud controls
Regulatory change (transport, hire licensing)	Low	Medium	Annual legal review; subscribe to NSW Fair Trading and Transport for NSW updates

10.2 Incident Response

- **Vehicle accident:** Call police if required; notify insurer within 24 hours; document via incident report; remove vehicle from booking system
- **Customer complaint:** Log in system; respond within 24 hours; escalate to facility manager if unresolved within 48 hours; NSW Fair Trading referral if dispute unresolved
- **Data breach:** Follow Notifiable Data Breach procedures (Privacy Act 1988, Cth); notify OAIC and affected individuals as required

11. SWOT Analysis

	Strengths	Weaknesses
Internal	✓ Fleet already owned — zero acquisition cost	X Limited to operating hours (staff dependent)
	✓ Vehicles already registered, serviced, and insured	X Manual processes in Phase 1
	✓ Existing trusted brand in community	X Small team; limited capacity to handle surge in bookings
	✓ Low capital outlay vs. any competitor starting from scratch	X No prior vehicle hire experience
	✓ Community relationships already established	X Revenue depends on vehicles being idle (facility use takes priority)
External	Opportunities	Threats

Strengths	Weaknesses
✓ Growing elderly and NDIS population in NSW	X Competitor rideshare platforms improving accessibility
✓ Gap in accessible vehicle hire market	X Insurance premium increases for hire use
✓ NDIS funding can be applied to transport	X NSW regulatory changes (licensing, transport rules)
✓ Community goodwill for care-sector operators	X Low awareness initially if marketing is insufficient

12. Governance & Staffing

12.1 Organisational Responsibility

Role	Responsibilities
Facility Owner / Director	Strategic oversight; insurance and legal sign-off; financial approvals
Operations Manager	Day-to-day booking management; staff scheduling; incident response
Front Desk / Admin Staff	Booking confirmations; customer communication; key handover; system updates
Maintenance Staff	Vehicle cleaning; pre-hire inspections; maintenance scheduling
IT / Developer (contracted)	Platform maintenance; software updates; backup verification

12.2 Staff Training Requirements

Before launch, the following training must be completed:

- Booking system operation (admin dashboard)
- Key handover procedure and vehicle walk-around checklist
- Hire agreement and waiver process
- Accessibility awareness (disability-inclusive customer service)
- Privacy obligations under the APPs
- Incident reporting procedure

12.3 Policies Required

Policy	Status
Vehicle Hire Terms & Conditions	Draft (legal review required)
Privacy Policy	Draft (APP-compliant)
Cancellation & Refund Policy	Draft
Damage Assessment & Deposit Policy	Draft (Phase 2)

Policy	Status
Vehicle Maintenance & Safety Policy	Draft
Driver Eligibility & Licence Verification Policy	Draft
Incident Response Policy	Draft

13. Implementation Roadmap

Phase 1 — Launch (Months 0–3)

Milestone	Owner	Target
Legal review of hire licensing requirements	Legal adviser	Week 1
Insurance endorsement confirmed	Broker	Week 2
Terms, conditions, and privacy policy drafted and reviewed	Legal adviser	Week 2–3
Booking platform development completed	Developer	Week 4–6
Fleet photographed and entered into system	Admin staff	Week 5
Staff trained on system and procedures	Operations manager	Week 6
Soft launch (facility families only)	All	Week 7
Public launch via website and email	Marketing	Week 8

Phase 2 — Consolidation (Months 3–6)

Milestone	Owner
Payment gateway integrated (Stripe or eWAY)	Developer
Automated email confirmations and reminders	Developer
Security deposit flow implemented	Developer
Community partner outreach completed	Operations
First KPI review and pricing adjustment	Management

Phase 3 — Growth (Months 6–12)

Milestone	Owner
NDIS invoicing support (optional)	Developer / Accountant
Driver validation (licence scan) integration	Developer
Reporting dashboard for management	Developer
Evaluate fleet expansion or mix adjustment	Management

Milestone	Owner
Annual legal and insurance review	Legal / Broker

14. Key Performance Indicators

KPI	Measurement Method	Target (Year 1)
Fleet utilisation rate	Hours rented ÷ hours available	≥ 15%
Monthly bookings	Admin dashboard	≥ 30/month by Month 3
Booking conversion rate	Visits ÷ completed bookings	≥ 10%
Average revenue per rental	Total revenue ÷ bookings	≥ \$88 AUD
Customer satisfaction	Post-rental email survey (1–5 stars)	≥ 4.2 / 5.0
Cancellation rate	Cancelled ÷ total reservations	≤ 15%
Repeat customer rate	Customers with > 1 booking	≥ 30% by Month 6
Incident rate	Incidents per 100 rentals	≤ 2
Platform uptime	Monitoring service	≥ 99.5%

15. Appendices

Appendix A — Applicable Legislation Summary

Legislation	Jurisdiction	Relevance
Motor Dealers and Repairers Act 2013	NSW	Vehicle hire licensing
Road Transport Act 2013	NSW	Vehicle registration, road use
Motor Accidents Injuries Act 2017	NSW	CTP insurance
Work Health and Safety Act 2011	NSW	Staff safety in hire operations
Anti-Discrimination Act 1977	NSW	Non-discrimination in service provision
Disability Inclusion Act 2014	NSW	Inclusive service design
Privacy Act 1988	Commonwealth	Australian Privacy Principles
Competition and Consumer Act 2010 (Sch. 2)	Commonwealth	Australian Consumer Law
Disability Discrimination Act 1992	Commonwealth	Web accessibility, service access
A New Tax System (GST) Act 1999	Commonwealth	GST on hire services
Electronic Transactions Act 2000	NSW	Validity of online agreements

Appendix B — Recommended Professional Advisers

Role	Purpose
Solicitor (transport / commercial)	Hire agreement, licensing advice, terms and conditions review
Insurance broker (commercial motor)	Hire endorsements, public liability, CTP confirmation
Chartered accountant	GST registration, BAS, revenue reporting
IT / web developer	Platform build, hosting, security

Appendix C — Useful NSW Government Resources

- NSW Fair Trading — Motor Vehicle Dealers: www.fairtrading.nsw.gov.au
- Transport for NSW: www.transport.nsw.gov.au
- NDIS Quality and Safeguards Commission: www.ndiscommission.gov.au
- Office of the Australian Information Commissioner (OAIC): www.oaic.gov.au
- Digital NSW Accessibility: www.digital.nsw.gov.au/delivery/accessibility-and-inclusivity

This business plan is a working document and should be reviewed and updated at each phase milestone. All financial projections are illustrative and should be validated against actual trading results. Legal and insurance matters must be resolved with qualified professional advisers before commencing public hire operations.
